Intern Fullstack Developer | Java, Spring Boot, React.js | Eager to Learn & Grow | Intern Backend Developer

PROFESSIONAL SUMMARY

Graduate Software Engineer with a solid foundation in Java, Spring Boot, JavaScript, PHP, and React.js, complemented by hands-on project experience in backend and full-stack development. Skilled in designing and consuming REST APIs, working with SQL databases, and deploying applications using Docker. Recently awarded a BSc (Hons) in Software Engineering (Second Class Division II, Birmingham City University, UK). Eager to contribute as a Backend or Full stack Developer Intern, bringing clean coding practices, collaborative teamwork, and a commitment to continuous learning of industry best practices.

PROJECTS

SkillMentor Platform: Full-Stack Online Mentorship System

Technologies: React, TypeScript, Vite, Tailwind CSS, Spring Boot, Spring Security, PostgreSQL, Clerk Authentication, Swagger/OpenAPI, Vercel, Render, Supabase

- Designed and implemented a mentorship platform enabling students to connect with expert mentors through guided one-on-one sessions.
- Built a secure backend with Spring Boot, Spring Security, and PostgreSQL, supporting role-based access control and payment workflows.
- Developed a responsive frontend with React + TypeScript, integrating Clerk authentication for seamless login and session management.
- Deployed production-ready applications on **Vercel (frontend)** and **Render (backend)**, ensuring scalability and reliability.
- Delivered API documentation via Swagger/OpenAPI, improving developer onboarding and system maintainability.

Android Development: Location-Based Job Matching App

Technologies: Android, Java, Firebase, Google Map API, Notification, Sensor Verification, PayHere Payment Method

- Developed core application logic and UI components using Java within the Android framework, enhancing user experience for job seekers.
- Integrated Firebase for real-time data synchronization, supporting 100+ active users with instant updates.
- Implemented location-based job matching using Google Map API, enabling precise job recommendations.
- Enabled real-time job alerts via FCM push notifications, facilitating instant communication of opportunities.
- Enhanced security with proximity sensor-based verification, strengthening user account protection.
- Integrated PayHere Payment Method via SDK/API, allowing seamless and secure in-app transactions.

Full-Stack Web Development: PHP & JavaScript E-commerce Site

Technologies: PHP, JavaScript, Bootstrap, HTML, CSS, PayHere Payment gateway

- Developed server-side logic and API endpoints with PHP for e-commerce functionalities and dynamic frontend interactions using JavaScript, enabling seamless product management and customer engagement.
- Designed and implemented a responsive user interface with Bootstrap, HTML, and CSS, ensuring optimal viewing across diverse devices and enhancing user accessibility.
- Integrated PayHere Payment Gateway via SDK/API, facilitating secure and efficient online transaction

processing for customers.

Real-Time Chat: Cross-Platform Messaging Application

Technologies: React-Native(Expo), Java, MySQL db

- Developed cross-platform user interfaces leveraging Expo modules for device features using React-Native, achieving a consistent user experience across iOS and Android platforms.
- Implemented backend logic for user management, message handling, and real-time communication using Java, enabling reliable and instantaneous message delivery for up to 500 concurrent users.
- Designed and optimized MySQL database schema for efficient storage of chat messages and user data, improving data retrieval speed for chat histories by 30%.

EDUCATION

BSc (Hons) in Software Engineering in Software Engineering

2026

Birmingham City University (UK)

Awarded: April 2026

Classification: Second Class Division II (58.36%)

G.C.E Advanced Level Examination (Commerce Stream) in G.C.E Advanced Level Examination (Commerce Stream)

2021

Loyola College Negombo, Sri Lanka

Accounting	C
Business Studies	C
Economic	C

TECHNICAL SKILLS

LANGUAGES: Java, JavaScript, PHP

FRAMEWORKS: Spring Boot, ReactJS, React Native

DATABASES: SQL, MySQL, Firebase, PostgreSQL

OTHER: REST APIs, Docker, Problem Solving, Teamwork, Communication, Eagerness to Learn

Communication SKILLS

English

Sinhala
